May THE FORCE be with you.™ The game theme follows the non-stop action of the movie. **THE EMPIRE™** is in search

of the **REBEL™** hideout. The **IMPERIAL FORCES™** led by **DARTH VADER™** fear the increasing power of **THE FORCE™** growing within **LUKE SKYWALKER™**. Their mission is to prevent him from becoming a full-fledged **JEDI WARRIOR™** and using **THE FORCE™** against **THE EMPIRE™**.

The cumulative goal for the player is to achieve full JEDI power by accomplishing the J-E-D-I Spellout. To do this the player must destroy a given number of targets including **PROBOTS™**, **WALKERS™**, **TIE-FIGHTERS™** and asteroids. A letter J-E-D-I is awarded after the successful completion of each level.

If the player accomplishes the J-E-D-I Spellout, he becomes unscoreable for a period of time as his JEDI FORCE™ protects him against all evil forces.

The player is given a fixed number of shields at the start of each game. Each time a collision occurs, a shield is lost. The game ends when all shields are gone.

Exciting New Play Action.

The player takes the role of **LUKE SKYWALKER™** piloting a highly maneuverable **SNOWSPEDDER™** against the gargantuan **IMPERIAL WALKERS™** as they advance to annihilate the **REBEL BASE™** on the frozen planet of **HOTH™**. The player's only hope is to use his laser blasters or a limited supply of tow cables to destroy the giant marauders.

THE EMPIRE™ dispatches an army of surveillance **PROBOTS™** to **HOTH™** to search out the **REBEL BASE™**. The player must prevent the **PROBOT™** transmissions from reaching **DARTH VADER™** so that the base will not be detected.

It's not easy because the player must

intercept barrages of laser fire from the **PROBOTS™** and ultimately destroy them.

The action continues as the player becomes **HAN SOLO™** as the **MILLENNIUM FALCON™** evacuating **HOTH™** in search of safety somewhere in the galaxy. Pursuing **TIE-FIGHTER™** squadrons provide plenty of action and challenge as they try to prevent the player's escape.

More dangers are ahead. A deadly asteroid storm fills the screen. The player must dodge or blast his way through it. If he survives, a huge asteroid appears... finally a safe place to land the **MILLENNIUM FALCON™**! (Or is it?)

Operator Options.

Operators may select 4 different numbers of starting shields, 4 difficulty settings, and 4 options for JEDI™ Spellout Bonus.

High Score Table.

Table displays top 32 scores with initials. Monitor also displays high-score-to-date, current player's score, and next high score to beat to get on the high score table.

Exciting new profit potential.

Take advantage of the most profitable entertainment property in the world! **THE EMPIRE STRIKES BACK™**, the movie, grossed \$181,379,840 the first year. The video game potential is awesome. Use the power of **THE FORCE™** strike now with **THE EMPIRE STRIKES BACK™**!
